

Cornell High Energy Synchrotron Source

2016 Users Meeting

**Creating a Brighter
Future for CHESS,
Users, and Science**

June 7-8, 2016

Physical Sciences Building
Cornell University, Ithaca, NY

SPEAKERS: (June 7)

Neil Banerjee

University of Western Ontario

Armand Beaudoin

Cornell High Energy Synchrotron Source
& University of Illinois

Erik Muller

SUNY Stony Brook

Moutse Ranaivoson

University of Medicine & Dentistry of New Jersey

Linda Sapochak

National Science Foundation

Sin Urban

Johns Hopkins University

After Dinner Speaker:

Juan Hinstroza,

Associate Professor of Fiber Science - Cornell University

This meeting brings together CHESS users, scientists, and staff to discuss the impressive research and exciting plans for the CHESS Upgrade. Please join us for inspiring and thought provoking presentations by leaders of the scientific community.

WORKSHOPS: (June 8)

- New Industrial & Scientific Opportunities for Structural Materials
- Biomolecules in Motion
- Synchrotron Resources for the Future of Thin-Film Growth, Processing, & Characterization
